

Canada: Approved positions nearly doubled between 2021 and 2023

Note: A positive LMIA (Labor Market Impact Assessment) must be obtained by an employer before hiring a Temporary Foreign Worker (TFW) for a specific occupation. The data provided above tracks TFW positions on LMIA's only, not TFWs that are issued a work permit or who enter Canada. The decision to issue a work permit rests with Immigration, Refugees and Citizenship Canada (IRCC); therefore, not all positions approved result in a work permit or a TFW entering Canada.
